DETAILED ACTION

Drawings

The missing drawings were received on 5/6/04. These drawings are acceptable.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 1, line 1 of the specification, the word "continuing" was deleted and replaced with – continuation---.

Allowable Subject Matter

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance: the method of securing a clip using an application tool to an intervertebral disc prosthesis with a flange was found to be novel. The prior art (5653762, 6835206) did teach placing a clip on a spinal implant using a screw, but failed to teach applying a closing force on the tool device and placing the clip with a hook flange over the flange of the implant over a portion of a bone screw.

Art Unit: 3738

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
